

HTML

1. Login Form

Implement the HTML (login.html) needed for viewing the following form:

- ⚠ The email validation should be automatically performed (ex: a@b.c)
- ⚠ The password should be automatically hidden (ex: *****)

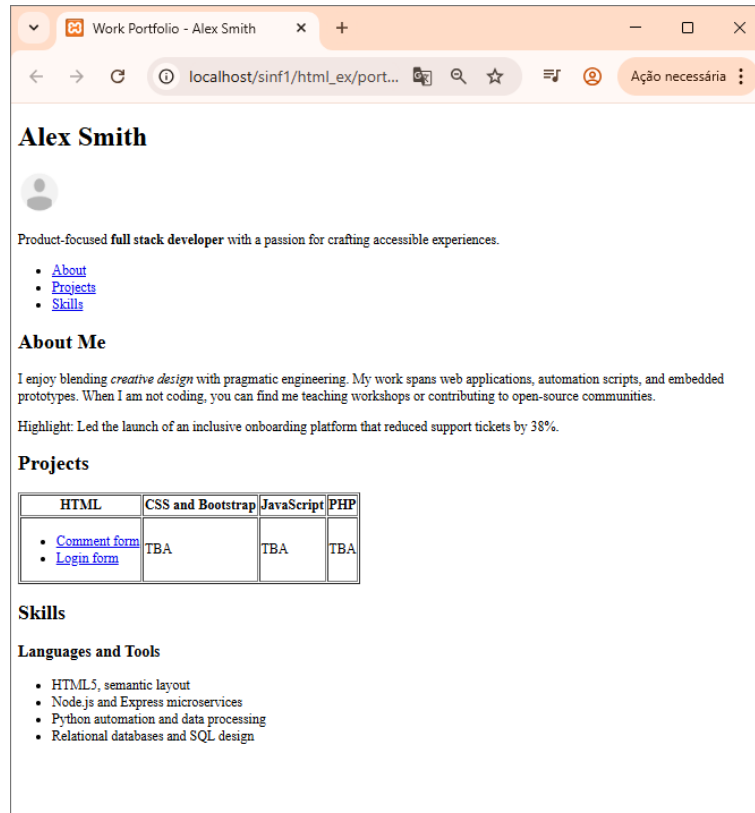

2. Comment form

Implement the HTML (comment.html) needed for viewing the following form:

- ⚠ The options on the select box for the “Secção” (section) are: Produtos (products), Promoções (sale), Serviços (services) and Lojas (stores).
- ⚠ The “Limpar” (clear) button automatically clears the form

3. Portfolio

Implement the HTML (portfolio.html) to publish your portfolio:

⚠ Include:

- Name
- A picture that, when clicked, redirects us to your LinkedIn page
- Links to the “About Me”, “Projects”, and “Skills” sections
- In “About Me” add some text
- In “Projects”, add a table with links to the previous 2 exercises
- In “Skills”, add a list of skills
