

SQL

Load the **filmrental.sql** script into phpMyAdmin. Considering the database schema bellow, build the queries needed to answer the following questions (the expected result is shown for each query).

1. List the name and salary of all employees.

name	salary
Ana Silva	2500.00
João Costa	1200.00
Maria Lopes	2600.00

2. List all stores located in Porto.

store_id	street	city	district	postal_code	telephone
1	Main Street 10	Porto	Porto	4000-001	222-111-111

3. Show the title and genre of all Horror films.

title	genre
The Shining	Horror

4. List all available video copies.

video_number	status	catalogue_number	store_id
401	Available	301	1
404	Available	303	2

5. List the names of employees and the city of the store where they work.

name	city
Ana Silva	Porto
João Costa	Porto
Maria Lopes	Lisbon

6. Show the store ID and manager name for each store.

store_id	manager_name
1	Ana Silva
2	Maria Lopes

7. List the film titles and the store where each video copy is located.

title	store_id
The Matrix	1
The Matrix	1
The Shining	1
Gladiator	2

Instituto Superior de Engenharia
Licenciatura em Engenharia de Sistemas
(Departamento de Matemática)
Sistemas de Informação 1

8. Show all rentals with customer full name, film title, and rental date.

first_name	last_name	title	rental_date
Pedro	Santos	The Matrix	2025-01-05
Pedro	Santos	The Shining	2025-01-06
Inês	Ferreira	Gladiator	2025-01-10

9. Find the total number of stores.

total_stores
2

10. Calculate the average salary of employees.

average_salary
2100.000000

11. Show the minimum and maximum rental price of films.

min_price	max_price
3.00	4.00

12. Count how many video copies each store has.

store_id	total_copies
1	3
2	1

13. Show the number of employees per store.

store_id	total_employees
1	2
2	1

14. List only the stores with more than one employee.

store_id	total_employees
1	2

15. For each film genre, show the number of films.

genre	total_films
Action	1
Horror	1
Science Fiction	1

16. Show customers who have made more than one rental.

customer_id	total_rentals
201	2

17. List films that currently have at least one rented copy.

title
The Matrix
The Shining

18. Show the total number of rentals per customer (including customers with 0 rentals).

customer_id	first_name	last_name	total_rentals
201	Pedro	Santos	2
202	Inês	Ferreira	1

19. Find the store with the highest number of video copies.

store_id	total_copies
1	3

20. Show the total number of rentals per store.

store_id	total_rentals
1	2
2	1

21. Show customers with active rentals (not yet returned).

customer_id	first_name	last_name
201	Pedro	Santos

22. Find the most rented film.

title	total_rentals
The Shining	1
